All teachers and friends of education are hereby notified that there is to be a teachers' meeting at the High School Assembly room, Saturday, Jan. 26, 1895, beginning at 10 o'clock Standard Time.

The program of this our second meeting for the year promises to be one of great profit to teachers. The program will consist of music and discussions. The music will be furnished by home talent.

The discussions will be furnished largely by foreign talent. Dr. Super of Athens, Supt. Burgess of Lancaster, Supt. Coultrap of Nelsonville, and Supt. Williams of New Straitsville, will take part in the meeting. All are invited to be present and take some part in the meeting. The entire program will be published in next week's paper.

Mr. Hensen Tussing has been appointed Postmaster at New Lexington. The appointment is a deserved recognition of a capable man and a good Democrat. He is identified with the Democratic newspaper, and was endorsed by the Democracy of his town and county. His appointment is especially gratifying to Logan in this. He is a Monday Creeper. He was born and raised near Maxwell, our very close neighbor and much loved suburb. Monday Creek township is a Logan township. It is nearer us than most of the townships of Hocking county, and its trade is almost entirely here. Her Democrats get from Logan their inspiration. We claim the people although Perry claims the land. We are Democrats in common, although our candidates do not get their vote. And although the Postmaster is not our Logan citizen, he is a Logansite in all that makes up a good Democrat and a first class gentleman and Postmaster. New Lexington has our congratulations on her new Democratic Postmaster, and Hensen has our benediction.

The Mining Engineers on their return visit to the mines last Friday stopped off for an hour in Logan. Among the company we were pleased to find our old friend Andy Roy. Andy and the writer got to know each other a quarter of a century ago, when both had graduated from a slack pile, and came together in the common purpose to help the men making a living by mining coal; and through all the years since, we have been pretty close companions, on that same general road, separating sometimes in the political thickets, and crossing the rivers at different fords, but moving in parallel on the Labor Question. Mr. Roy is to be credited with the first law on the Statute Books of this State for the protection and health of theminers. The Daugherty Law, providing for mine inspection, is his law. He framed the measure and by his untiring efforts in representing the needs of such an act, secured its passage. He was, as mine inspector, efficient in carrying its provisions into force, and always has been active and useful in perfecting such additional legislation as has followed. Time has dealt gently with the canny and crabbed Scot. Andy looks as rugged and as sturdy as an oak on the Grampian hills, and withal as genial and as jolly as a lad among the "Rigs O'Barley." He is a leader among men, and when we met him in Logan, the companion of a crowd of boys. His cool head and his hard muscles have yet the direction of a young, warm, boyish heart, and he goes with equal joyousness, among the bristling men of business, the cultured college professor and the gap and rollicking boys, on a day out of school. Long life to him.

—On next Friday evening Dr. Dollison will have an "opening" at his drug store, to which he cordially invites his friends and the public generally. The Doctor is rearranging and remodeling the store, and putting things in elegant shape, and will make the evening of the "opening," as all days and evenings, pleasant for them who visit him.

—There is no need of going out of Ohio for weather. Last week we shivered in Manitoba, Monday languished in Florida. We can get from the frosts below zero to warmth of spring fever by staying right here, quicker than a rail-road train could transport us on the meridians. A fall of sixty degrees of temperature has occurred during the last week within a period of thirty six hours. Ohio is a great state. The weather of oranges and ice are had in the same week, sometimes in the same day.

—Miss Virginia Dodge of Beverly, Ohio, is visiting in Logan, the guest of her relatives, Mrs. Little and Mrs. Dr. Dye. Miss Dodge is known to us as one of the most accomplished ladies of Ohio on the Board of Management of the Columbian Exposition, and her report of the department over which she had charge, is looked for with interest by her many Ohio friends, and the world generally and men particularly in the various phases of that all conquering weapons weapon the Fan.

A pleasant reception was given their visitor by Mesdames Little and Dye on last Friday.

Court Notes.

On Monday last Judge Slough came to the rescue of our court and kept jury and attorneys fully occupied until Wednesday afternoon, when he adjourned court until Monday the 28th inst.

In the case of Logan H. & S. Society versus Grant Wright the sale was set aside and new appraisal ordered. Same vs. Robt. Wright sale confirmed.

Sam vs. M. E. McManigal sale confirmed.

Alfred's Addition to Logan was ordered vacated.

The Court and Jury were occupied part of Monday, Tuesday and Wednesday in hearing testimony in the case of Ida Walters Adm'x of Augustus Walters vs. The C. H. V. & T. Ry.

The case was a suit for damages for the killing of Walters by one of the defendants trains at Jobs in Sept. 1893.

After the testimony for the plaintiff was all in the Attorneys for defendant moved to rule the case from the jury, which motion was sustained and the cause was dismissed. Exceptions.

By the judgment of the court it cost Charles Canter \$20 and costs and five days in jail for disturbing a religious meeting. Charles will be led to infer that a church meeting is an excellent place to stay away from when he is in a liquor excited quarrelsome mood.

A. Williams gotten dollars and costs for a similar offense.

Angle—Fansher Nuptials.

On Tuesday last at the home of the bride's parents the marriage of Miss Eva Fansher, of this place to Mr. Abe Angle, of Logan, Ohio, was solemnized in the presence of a select circle of relatives and friends.

The ceremony was performed by Rev. Hill, pastor of the M. E. Church at this place. The happy couple were the recipients of many handsome and valuable presents. Both young people are well known and highly esteemed by the people of this community, for Mr. Angle, though at present a resident of the Buckeye state, had lived here for a considerable period of time, and the bride has lived here from childhood. They will move to Ohio in a short time and will make their home at Logan. The best wishes of everybody is with this estimable couple.

Election of Officers.

At the election of officers of the Hocking Clay Manufacturing Co. held recently, the old officers and management was continued as follows: W. B. Hayden, of Columbus, President; John W. Jones, Vice President; C. E. Bowen, Treasurer; A. Magoon, Secretary, and General Manager.

The Works of the Company are one of the best and foremost of Logan industries and we are glad to have it continue under the present excellent management.

It is expected that the business of the succeeding year will be much better than the last.

A Serious Matter.

Columbus Dispatch.

Hon. Levi J. Burgess, Reporter of the Supreme Court, leaves for Rome, New York, at 4:30 Wednesday afternoon, to take a course of treatment in the hope of securing relief from a malignant growth on the hand. Mr. Burgess recently had a surgical operation performed on his hand, and a microscopic examination develops that the part removed is of malignant growth. The physicians gave no hope of a cure except by amputating the arm, but Mr. Burgess will try the treatment at Rome before consenting to the more radical measures. His many friends will hope for his complete and speedy recovery.

The Tramp Nuisance.

Logan seems to be a sort of paradise for tramps, and the good people of the town have been and are being worked for the support of a lot of lazy good for nothings, who would not work if they had every opportunity, and who demand food and supplies with the arrogance of a one who seeks a right.

We are informed that some of these professional dead-beats have used violent and abusive language to the ladies who in some instances did not accede to their arrogant demands.

It comes on good authority that a large number of these pests have taken possession of the house located on the Y of the C. H. V. & T. Ry., and are stealing coal for in passing trains, and begging their food from our people. This is wrong and should not be tolerated.

It is no charity to give to such and is a heavy burden to our citizens who have our own resident and deserving poor to care for.

Let the tramp be banished or made to work on our streets for his food.

Let any stranger found asking for gifts of food, or other supplies, without a permit from the authorities be arrested for vagrancy and put to work cleaning streets, and gutters and the tramp nuisance will speedily abate.

SUICIDED.

Coroner Lyons was notified on Monday that the body of a man had been discovered near the old coal mine on the James farm in Green township.

On the investigation it was found that death had been caused by a pistol shot which entered the body immediately under the chin and so far as could be ascertained had lodged somewhere in the head.

Nothing was found on or about the person by which he could be certainly identified, but a receipt for dues paid a week ago to a labor union lodge at Hollister, O. led to the conclusion that his name was Henry Tritch and that he belonged to the above named place.

Three dollars and seventy three cents in money and a watch, as all the property of value found on his person, and a 38 caliber revolver was tightly grasped in his hand.

The body was first discovered by Frank Joy, a boy, who was out hunting and who gave due and immediate notice of the grisly find.

Decayed bald brown hair, thin brown mustache and beard, of apparently two months growth, and light blue eyes, apparently 25 or 30 years of age, and would weigh about 175 pounds and was dressed in dark clothes.

After the inquest the remains were brought to the undertaking rooms of J. A. Oliver, who prepared them for interment.

Whether death was wilful or the result of accident will always remain a mystery.

In response to a telegram sent to Hollister his remains were claimed by the U. M. W. Lodge.

The latest concerning the sad case is that Tritch, was a coal miner, and a member of the United Mine Workers at Hollister, from which place he started on last Friday, with the expressed intention of returning to France, his native country.

It is said that he had money enough to pay his expenses there and back when he left Hollister.

He was not a habitual drinker but would take occasional spree, and had been drinking immediately before he left Hollister, and where and how he spent the time from Friday to Monday is not known.

He has no relatives in this country except a cousin who is said to live in Shawnee.

The body was claimed by his Lodge at Hollister, and was taken to that place on yesterday morning and interred at the expense of the organization.

Installation and Banquet.

The public Installation in both branches of the I. O. O. F. Lodge occurred as per announcement on last Friday evening and was conducted by D. D. G. M. James E. Brown, and a corps of able assistants.

The Elective officers of the Lodge are the following: N. G. Jacoby; V. G. James Miller; Rec. Sec. J. W. T. Sanders; Per. Sec. D. Finney; Treas. W. N. Guthrie.

The officers of the Encampment are: C. P. Joel Kitts; Sen. War. Jerry Hangel; Jan. War. J. A. Boal; High Priest, Jas. E. Brown; Scribe, J. T. Sanders; Treas. N. W. Hamblin.

The banquet, thanks to the ladies and committees, was a grand success, and was partaken of by more than three hundred persons.

Past Grand Patriarch Conly and Grand Secretary Lyman were present and, after the banquet, entertained the audience with addresses which will be long held in grateful remembrance.

Patriarch Wright of the home Encampment also made some timely remarks.

At a late hour the assemblage dispersed feeling well pleased with the evening's entertainment.

Resolution in Hawaii.

The news comes from San Francisco under date of January 19th stating that the steamer Alameda arrived from Auckland and Sydney via Honolulu yesterday afternoon, and brings news of a revolution and bloodshed at Honolulu. Charles L. Carter, who was one of the annexation commissioners, was killed and other government supporters were wounded. There has been much fighting and at least 12 natives have been killed. Nearly 200 royalists are now under arrest. Robert Wilcox is the leader of the rebels. The fighting was still in progress when the Alameda left Honolulu on Jan. 11, but the government forces had practically overcome the revolutionists.

New Infirmary Superintendent.

The New Board of Infirmary Directors have engaged Daniel Eagle, of Benton Twp. for the responsible position of Supt. of Infirmary farm.

We are not personally acquainted with the new man, but if he comes anywhere near making as careful and efficient superintendent as Mr. Keller, just retired we will be perfectly content.

The Infirmary has never been better cared for than during the administration of Jacob Keeler and his excellent lady.

RENDVILLE MINERS

Vote Down a Proposition to Mine Coal for the Poor of Other Places.

A letter of request signed by a committee of five suffering miners was sent to C. Born & Co., of Columbus asking a donation of beer, saying when times were good they were regular patrons of his beer. The letter was returned to Agent Holden with instructions to donate a keg of beer to each of the subscribers, which was done. The miners and citizens of Rendville held a meeting to take action toward working a day in the mines, the coal to be forwarded to Columbus and other points whose people had responded so promptly to the call of aid, the same to have the same distribution as the provision sent here. The resolution was at once voted down by the miners. Nelsonville and Shawnee held like meetings and cheerfully agreed to donate one day's work in mining coal for the needy at other places.

The Rendville miners have been text for several articles in the SENTINEL.

When Rend, the Chicago coal magnate, colonized the horde of barbarian niggers at this place for the purpose of breaking a strike, and drove the white men out of their houses and compelled white women and children to settle in dug outs in the hillsides.

We denounced the outrage upon labor and intimated that the lousy horde should be driven out with as little compunction as though they were a drove of wild beasts. For this expressed notion the Editor of the SENTINEL was arrested by the United States Marshal on the charge of inciting riot, or something of that kind. But these are exciting and fighting days are passed, but the niggers remain. The Rendville colony is a pest place of industrial leprosy, that has infested our Valley, and the source of that trouble and distress that has so surely afflicted the miners ever since. The bayonets of Captain Smith's Military company gave the niggers a holding in the coal mines.

Now when the miners of the Valley, men of white faces and warm hearts, in grateful sport propose to donate a day's work, to the poor of other places, the miserable nigger hounds refuse to work and ask for kegs of beer.

We hope that the world abroad, the generous warm-hearted, charitable, christian people of the country who have been so liberal and so prompt in sending relief will not associate our miners of the Hocking Valley with the miserable beasts of Rendville, and quote the action of those labor lepers as evidence of the ingratitude of the white men of the Hocking Valley.

Built It Quick.

Our news dispatches disclose the fact that the Boys Industrial School wants a new Chapel.

We have been wondering why Right Rev. Purcell, and Bishop John F. White have not recently conducted religious exercises at the School; but it is now clear. The Chapel facilities are wholly inadequate to accommodate the crowds who rush in to drink christian milk from the mouths of these emerald divines. Let the chapel be erected at once.

Revenue Assessor.

We are glad to learn that Mr. Chas. A. Spenny, of Columbus, has been appointed Revenue Assessor of this district, which comprises twenty-seven Counties including Hocking, under the Income tax provision of the tariff law.

The appointment is a good one and well pleasing to the many friends of Mr. Spenny in Logan.
